SUMMARY

I am a passionate web developer who began programming in my college. Throughout my academic journey, I have created numerous projects, which have significantly enhanced my knowledge and expertise in various web technologies. My dedication and skills led to a successful placement in a corporate environment, where I am currently working and continuing to grow as a professional.

CERTIFICATIONS

- **Front-End Web Development with React (Coursera)**
- **Front-End UI Frameworks and Tools: Bootstrap 4 (Coursera)**
- **Back-End Web Development with Express (Coursera)**
- **Cyber Security and Ethical Hacking with Kali Linux**
- **Java Full Stack (SLK SOFTWARE)**

EXPERIENCES

SLK Software

Software Engineer

- Collaborate with teams to translate clients needs into technical solutions. Troubleshoot complex issues and write clean, maintainable code. Eager to leverage expertise for a new challenge.

Mevi Technologies

Web Developer Intern

- I gained hands-on experience with Next.js, leveraging its powerful features such as server-side rendering, static site generation, and API routes to create scalable and high-performance web applications. This allowed me to build dynamic and SEO-friendly applications efficiently.

PROJECTS

Motoghar -A marketplace for vehicle rental and sale

<https://motogharnepal.vercel.app/>

- Developed using Next.js, NestJS, Tailwind CSS, and MongoDB, offering a robust and modern solution for the rental and sale of cars and bikes.
- Hosted on Vercel, ensuring high performance, scalability, and seamless deployment.
- Utilized AWS technologies for efficient and reliable image storage.
- Focused on robust authentication, encryption, and best practices to ensure user data security and privacy.
